

2017 Milestones

Melissa Oldreive, Research & Outreach Manager
Fundy Ocean Research Center for Energy

fundyforce.ca

Our Team

Our Roles

- **Host:** onshore and offshore infrastructure, grid connection
- **Steward:** environmental monitoring, research, engagement

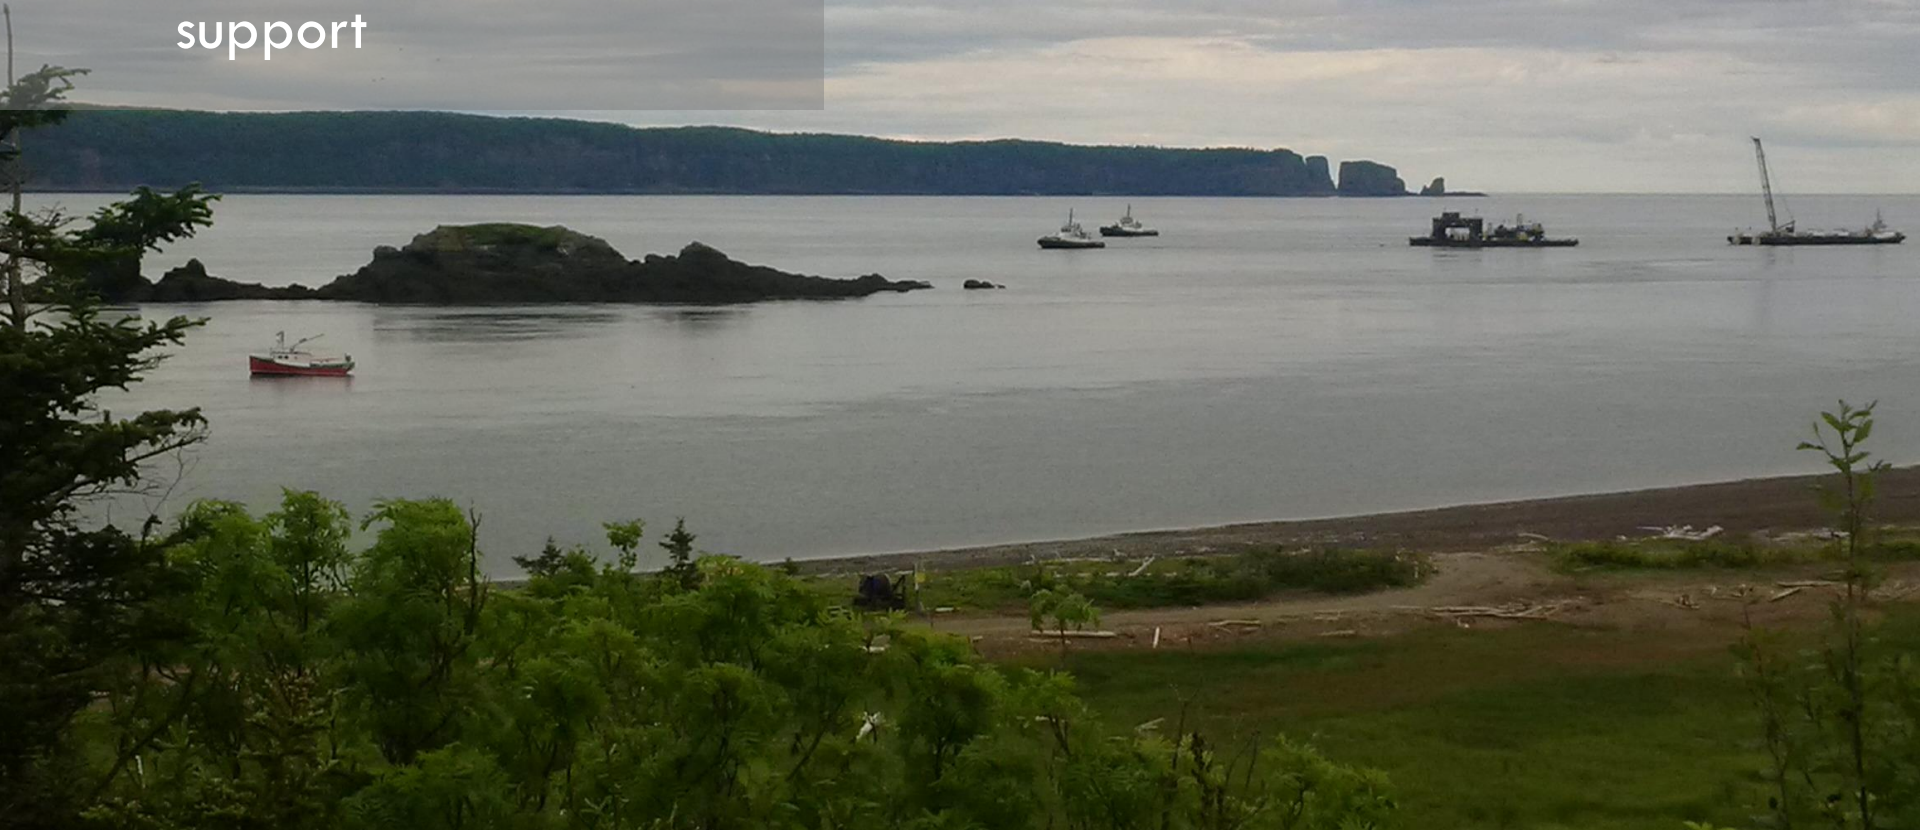

2017 Areas of Focus

- Supporting turbine operations
- Fundy Advanced Sensor Technology deployments
- Environmental Effects Monitoring Program
- Engagement and outreach

Turbine Operations

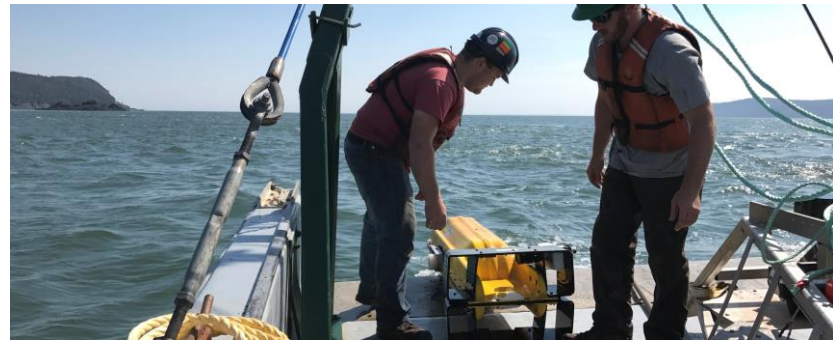

- Substation upgrades
- Turbine-related operations
 - Managing site safety, simultaneous operations
 - Radio and operational support

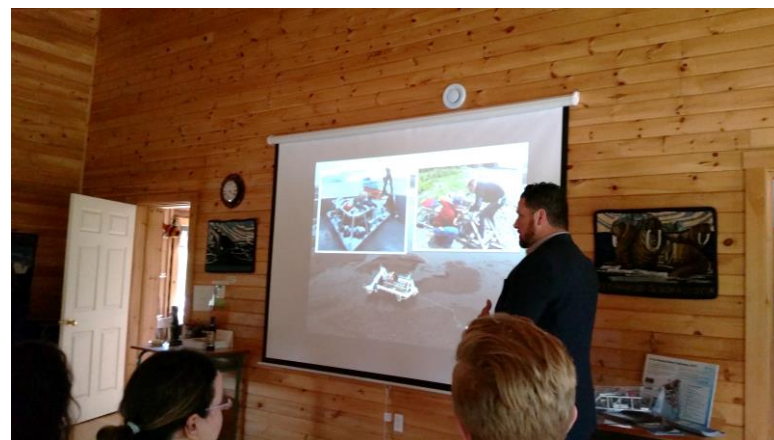

FAST-3 Sensor Platform
Recovery (video). [View online.](#)

EEMP Activities

- Ongoing monitoring:
 - Seabirds
 - Lobster
 - Noise
 - Fish
 - Marine mammals
- Quarterly and annual reports

Engagement & Outreach

Moving Forward

- Deployments – operational support
- Continued environmental effects monitoring
- Continued FAST and EEMP innovations
- Outreach and engagement

An aerial photograph showing a large, dark-colored offshore platform being towed by a tugboat. The platform has a prominent yellow and white circular structure in the center. Another tugboat is visible in the foreground, and a smaller boat is in the distance. The water is dark and choppy.

- Deployments – operational support
- Continued environmental effects monitoring
- Continued FAST and EEMP innovations
- Outreach and engagement
